Advance Medical Directives: Planning for Your Future

Read the full version at
respectlifeprogram.org/advance-directives.

Human life is good and to be protected. All medical decisions ought to reflect this core belief. Yet some medical and legal documents used to define a patient's future care can be harmful. No matter how well-crafted, they can't predict all the possible scenarios and best courses of action. In each set of circumstances, we need to judge whether a given treatment will provide real benefit to the patient, without causing harm or disproportionate burdens. The safest option is to designate a health care agent to make decisions if you become incapable of doing so. It's best to appoint a responsible, trustworthy person who understands and shares your Catholic values, and can apply them when the need arises.

The safest option is to designate a health care agent.
